Experience

QA & Technical Operations Manager

Aced Agency

April 2024 - Present

Remote | U.S. based

- Managed call QA and technical operations for insurance and lead generation campaigns
- Reviewed calls, checked dispositions, and verified valid sales
- Identified non-sale reasons and flagged low-quality, transfer, subsidy, and misrouted calls
- Found duplicate calls, expired pings, and call connection issues
- Monitored CPA, RPC, billables, conversions, and campaign trends
- Built reports to improve day-to-day visibility for the team
- Reviewed buyer and publisher performance and flagged quality issues
- Supported routing, lead flow, campaign setup, and technical troubleshooting
- Worked with CallGrid, Ringba, and Retreaver for call tracking and operational support
- Reduced manual call QA and reporting work through automation
- Reviewed AI QA results and handled manual checks when needed
- End to End CRM Implementation, supported CRM workflows and daily technical operations

Technical Support Manager

Business Lead Maker

May 2023 - June 2024

Remote | U.S. based

- Supported technical operations for lead generation campaigns
- Managed CRM tasks and lead tracking using TrackDrive
- Monitored lead flow and helped resolve tracking and delivery issues
- Maintained reports and internal updates in Google Sheets
- Coordinated issue follow-up and team communication through Skype
- Supported day-to-day campaign tasks and technical operations
